Palm Bay residents saved nearly \$6,000 on prescription drugs during the month of January due to their use of the City's free discount card provided without any use of taxpayer monies. A monthly report issued by the National League of Cities puts Palm Bay as the 10th highest beneficiary in the Country and a leader in Florida in both monthly and total cost savings for the purchase of prescription drugs not covered by medical insurance. In January local residents saved \$5,623.36 on 383 total prescriptions. The average price savings per prescription was \$14.68 or about 25% of the cost. Palm Bay residents have saved \$43,484.06 since the discount cards were made available in November 2009. "We continue to be the only city in Brevard County offering this discount program," said City Manager Lee Feldman. "There's no cost to the residents and it saves them money."

Palm Bay Prescription Drug Discount Card is available to all city residents free of charge and can help save an average of 20% off the price of commonly prescribed medications at participating pharmacies. Residents may use the discount card anytime prescriptions are not covered by insurance and there are no restrictions or limits on how many times the card can be used. Also, as part of the program, residents can be eligible for even higher discounts on select medications. The discounts cards are available through the following locations in Palm Bay:
