

PBAT Huff Retires

January 2000 – June, 2010

Protective Breathing Apparatus Technician (PBAT) Huff came to Palm Bay Fire-Rescue in January of 2000.

He quickly became an integral part of the Department due to his positive attitude, knowledge, and willingness to assist any one, any time, with any thing. His attitude has promoted an excellent partnership within the Department, and assisted with achieving goals with ease.

PBAT Huff, in his first year, cleared over 964 work orders! He has kept the Department's budget in mind whenever searching for needed equipment, and has often done repairs himself, saving PBF-R funding for use elsewhere. He will be missed.
